

<b>Mathematics</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>
<b>OPERATIONS AND ALGEBRAIC THINKING</b>				
Determines if a number is even or odd				
Fluently recalls facts within 20 using mental strategies: <input type="checkbox"/> addition <input type="checkbox"/> subtraction				
Solves one-step word problems within 100 with unknowns in all positions: <input type="checkbox"/> using addition <input type="checkbox"/> using subtraction				
Solves two-step word problems within 100 with unknowns in all positions: <input type="checkbox"/> using addition <input type="checkbox"/> using subtraction				
Uses addition to find the total number of objects arranged in arrays and composes an equation to express the amount				
<b>NUMBERS AND OPERATIONS IN BASE TEN</b>				
Understands the place value of each digit in a 3-digit number				
Counts within 1,000: <input type="checkbox"/> counts by 1's <input type="checkbox"/> counts by 5's <input type="checkbox"/> counts by 10's <input type="checkbox"/> counts by 100's				
Reads and writes numbers to 1,000 using: <input type="checkbox"/> standard form <input type="checkbox"/> number names <input type="checkbox"/> expanded form				
Compares two 3-digit numbers using symbols $>$ , $<$ , $=$				
Mentally adds 10 or 100 to a given number (100-900)				
Mentally subtracts 10 or 100 to a given number (100-900)				
Adds numbers within 1,000: <input type="checkbox"/> without regrouping <input type="checkbox"/> with regrouping				
Subtracts numbers within 1,000: <input type="checkbox"/> without regrouping <input type="checkbox"/> with regrouping				
Explains why addition and subtraction strategies work				
<b>MEASUREMENT AND DATA</b>				
Tells and writes time to the nearest five minutes using a.m. and p.m.				
Works with money: <input type="checkbox"/> Determines and compares value of money to \$5 <input type="checkbox"/> Solves word problems involving dollar bills, quarters, dimes, nickels, and pennies using \$ and ¢ symbols appropriately				
Estimates and measures the length of an object by selecting using appropriate tools and units (inches, feet, centimeters, and meters)				
Uses addition and subtraction within 100 to solve word problems involving lengths that are given in the same units				
Makes a line plot from data gathered by measuring lengths of different objects				
Draws a picture graph and bar graph to represent data gathered				
<b>GEOMETRY</b>				
Identifies/draws shapes having specific attributes				
Divides a rectangle into rows and columns to determine the area of the shape				
Divides circles and rectangles into equal shares, describing the shares as fractions
