

COURSE DESCRIPTION

This class is designed as a **JOB TRAINING PROGRAM** where you are prepared for post secondary training or an entry level position as an automotive technician.

CORE SUBJECTS will be used at a high level in understanding the complex systems and subsystems involved with today's modern automobile service and repair.

HARD WORK during which you will use your mind and body to pass comprehensive end of training exams as well as shop work of all kinds will be needed.

CERTIFICATES may be earned by passing the end of module comprehensive finals through the online training websites we utilize to reinforce the MDE objectives.
