Install the Loom Chrome Extension
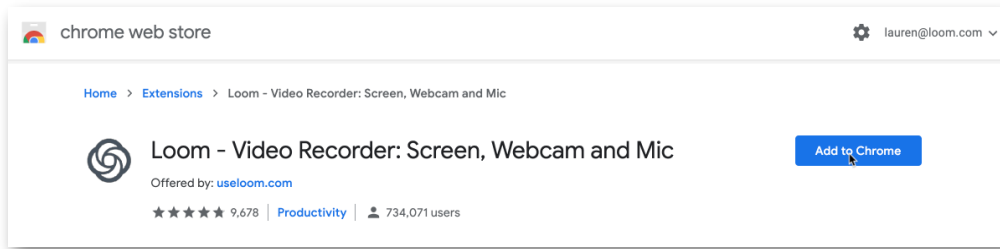

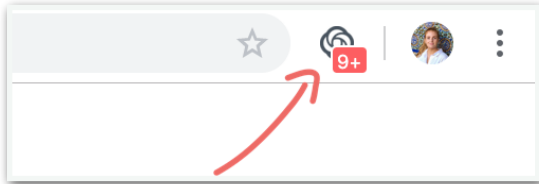

1. Visit our Chrome store here and select '**Add to Chrome'.**

2. Follow the prompts to enable your **microphone and camera access**, then the Loom extension will appear next to your URL bar, as shown below.

3. And that's it! 🎉 You're ready to start recording.

After successfully adding the extension, please complete your installation by signing up (if you are new to Loom) or logging into your account.

⚠️ **Please note:** Loom Chrome Extension is not compatible with other browsers such as Firefox or Safari.

If you can't find your Loom Chrome Extension?

It's possible it's hidden behind the puzzle icon 🧩. This is Chrome's way to let you choose which extension are visible. Here's how to check:

1. Click the **Puzzle icon** to reveal all your Chrome Extensions.
2. Find **Loom for Chrome** and press the **Pin icon**. This will move your Loom Extension to your Chome taskbar for easy future access.
