

## Install Chrome Browser on MacBook

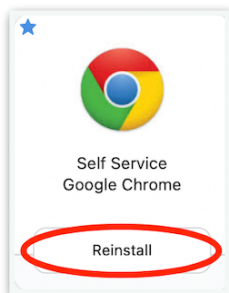

Click the Self Service icon in the lower right dock. (or find Self Service in Launchpad - F4 button on top row of keyboard)

In Self Service, type Chrome in the upper left search bar.

Click install under Chrome Browser in Self Service. If you see "Reinstall," this means you already have the app installed. You can reinstall to update or skip to the next step to launch Chrome.

Click the Launchpad button (F4 on top row of keyboard) and type Chrome. Click the Chrome icon to launch the browser.
