## Weekly Skills

### Language Arts:

Days, Months, and Holidays

**L12a:** Capitalize dates and names of people.

**RI12:** Identify main topic and retell key details of a text.

### Writing:

**W13:** Write narratives in which they recount two or more appropriately sequenced events, include some details regarding what happened, use temporal words to signal event order, and provide a sense of closure.

### Math:

**IG3:** Partition circles and rectangles into two and four equal shares. Describe those shares as halves, fourths, quarters. Use the phrases half of, fourth of, and quarter of. Describe the whole as two of, or four of the shares. Have an understanding that these examples that decomposing into more equal shares creates smaller shares.

### Science:

**P.16B, I2B.** Students will demonstrate an understanding of sound.

1. Conduct an investigation to provide evidence that vibrations create sound (e.g., pluck a guitar string) and that sound can create vibrations (e.g., feeling sound through a speaker).

2. Create a device that uses light and/or sound to communicate over a distance (e.g., signal lamp with a flashlight). Use an engineering design process to define the problem, design, construct, evaluate, and improve the device.
