

Explore the 120 Grid below and share your observations with someone. Look for patterns. Use it to count by 2s, 5s, and 10s. Play a game with a partner: Partner 1 calls out a number for Partner 2 to find. Partner 1 then asks what number is 1 more, 1 less, 10 more, or 10 less than the number they called. Then switch!

### 120 Number Grid

1	2	3	4	5	6	7	8	9	10
