

Take a few minutes each day to look at the weather together. Ask your child whether it's Lamb weather or Lion weather (think: "In like a lion, out like a lamb"). Have your child shade in one bar to represent today's weather.

Lamb & Lion Graph

Lamb Days
* Calm weather *

Lion Days
* Cold, windy, stormy weather *

After your child has shaded in a bar on the weather graph, have them write an equation to represent this week's weather total. How many Lamb Days + how many Lion Days = Number of days you've graphed weather this week.

Lamb & Lion Record Sheet

week 1

$$\square \text{ Lambs} + \square \text{ Lions} = \square$$

week 2

$$\square \text{ Lambs} + \square \text{ Lions} = \square$$

week 3

$$\square \text{ Lambs} + \square \text{ Lions} = \square$$

week 4

$$\square \text{ Lambs} + \square \text{ Lions} = \square$$

week 5

$$\square \text{ Lambs} + \square \text{ Lions} = \square$$
